LANE AN INSPECTOR

Lot K. C. Lane was appointed a sanitary inspector after some discussion at the Board of Health meeting yesterday. Drs. Cooper and Pratt were in favor of having only ten inspectors at a salary of \$100 per month instead of having twelve at a smaller salary. They opined that better men could be had at a good salary and a better service thus insured. The rest of the members were, however, in favor of the appointment.

Sanitary Inspector Bowman of Hilo submitted his monthly report. On the recommendation of Dr. Cooper, Bowman will be called to this city for two weeks to observe the methods of local sanitary inspection.

H. Myhre was re-appointed milk inspector at a monthly salary of \$100. It had been found impossible for the veterinary to do this work in addition to his regular duties. Cecil Kalehua was appointed health officer and Mr. Miller, morgue attendant at salaries of \$70 and \$75 per month, respectively.

Upon favorable reports from the Board of Medical Examiners Dr. K. Kuramoto and Dr. Y. Yoshizawa were given licenses to practice. Dr. Cofer reported Yokohama, Kobe and Nagasaki clean; Shanghai 31 deaths and 1 new case of smallpox; Hongkong, two cases of smallpox.

Bright's Disease

Not Rare, but Common—All Kidney Diseases are Bright's Disease—The 8th to 10th Month it Becomes Chronic and Incurable by All Known Means Except the new FALCON Compound, which Record 87% of Recoveries.

We have before you a little work on kidney disease by Joseph F. Edwards, M. D., of Philadelphia, that contains some things that everyone ought to know. Many people imagine Bright's Disease is rare, when, in fact, it is the most common of all diseases. This book tells you that the kidneys have but one function, viz., the elimination of the urea and waste products, and that all interferences with that function are called Bright's Disease. Dr. Edwards adds: "For the benefit of physicians who may read this book I will give a list of the cases which I attribute to Bright's Disease, viz.:

Albuminuria.
Conjunctivitis of the Kidney.
Fatty Degeneration of the Kidney.
Inflammation of the Kidney.
Trauma.
True all kidney disease being Bright's Disease, the serious question is, is it acute or chronic? In other words, is it in the primary or secondary stage? After the eighth to tenth month it becomes chronic and is then incurable by all known means except the new FALCON Compound. The kidneys are not sensitive. There is often no action of the trouble till it has already reached a dangerous stage. It is a quickening. It is so easy to see it is so common. It is the only thing that will cure it. In proof that nothing else will we give all evidence that is available. There is only one thing to take. The new Compound for Bright's Disease is for Diseases, St. St. John J. Pillsbury, 222 Washington street, San Francisco, sole compounder. Free analyses for patients. Pamphlet free. We are the sole agents.

HOSSETTER'S

This wonderful medicine has never been equalled as a stomach strengthener and health builder. It is the only one to take when your system is weak and run down and you suffer from dyspepsia, indigestion, constipation, flatulency, sour stomach or headache. Try it. It will surely do you good. Be sure to get the genuine with our Private Die Stamp over the neck of the bottle.

HOSSETTER'S STOMACH - BITTERS

WHAT IS A LENS?

Ask this of ten persons and nine will answer: "A piece of glass." A piece of glass may be a lens, yet a lens is not a piece of glass. This "little piece of glass" has done more for the relief of suffering humanity, when properly ground to correct existing eye defects, than can possibly be estimated. In our practice alone hundreds will testify to the relief from poor vision—b the head and eye aches, and many nervous disorders which medicines had failed to relieve.

The Standard Gas Engine

Marine and Stationary.

The "STANDARD" is all that its name implies. It is the most perfect Gas Engine that has been placed on the market today. It possesses all of the best features to be found in other Gas Engines, besides many advantages peculiar to itself that will be appreciated as soon as seen.

ACCESSIBILITY. Every part of the Standard Gas Engine is readily removable and accessible with the aid of an ordinary wrench and screw-driver—no special tools required. This is a fact that will be fully appreciated by those who have skinned their knuckles and been tempted to profanity by trying to get at the parts of other Gas Engines. Can use either gasoline or distillate. Absolutely safe; always ready and willing to run. Makes no noise and easy to start and keeps going, and the same can be said of the Stationary. We will install our Marine and Stationary Engines and guarantee to run them and will do all kinds of repair work. For full particulars inquire of
